

Review Form 3

Journal Name:	Asian Journal of Geographical Research
Manuscript Number:	Ms_AJGR_121070
Title of the Manuscript:	A GIS-BASED APPROACH FOR ASSESSING URBAN DEVELOPMENT POTENTIAL IN FEDERAL CAPITAL TERRITORY NIGERIA
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>This manuscript significantly benefit for the scientific community as it incorporates very current and sensitive topic around urban area. Hence, the manuscript comprehensively presents the urban development potential through applying GIS tool which is very important for the scientific community. I also like it due to its significance for the scientific community and the approach it employed to assess the urban development potential, the finding obtained and the way forwarded.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Absolutely, the title is very suitable as it is short and precise.</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>The abstract of the article is comprehensive, however, abbreviation and acronym are not recommended in the abstract.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Both the subsections and structure of the manuscript are appropriate.</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>Firstly, the topic is sensitive around urban area which positively contributes for scientific community through assessing new dimension of urban development potential. Secondly, the research design and approach employed in the manuscript are clear and scientific. Thirdly, the manuscript incorporated very important research components such as abstract, introduction, materials and methods, summary, conclusion and recommendation which makes the manuscript scientifically robust and technically sound.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :</p>	<p>The references are sufficient; however, certain references are not recent. References need to be within the last 10 years Eg.</p> <ul style="list-style-type: none"> ➤ Anderson, J. R., Hardy, E. E., Roach, J. T., & Witmer, R. E. (1976).
