Manuscript Number:	<b>Ms_JAMMR_121962</b>
Title of the Manuscript:	<b>Women's Utilization of Delivery Facilities and their Satisfaction with care in Ondo State, South West Nigeria</b>
Type of the Article	

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Empowering the Health System In South west Nigeria is a matter of care. Women's satisfaction/and trust in Hospitals are crucial for the intrapartum Hospital care, especially if complicated. I usually don't make difference in factors such as religion and ethnicity, because lacking of scientificity	
Is the title of the article suitable? (If not please suggest an alternative title)	Suggestion is to include the type of study in the title: - A data analysis? - A Data registry? - An observational study?	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	In material and methods please where " the study used a cross sectional design ....." Is not clear the type of study, please clarify	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This study confirmed a clear correlation between several factors related to women's satisfaction and pregnancy experience. These Factors analysed are well knowned in Europe with various degree of correlation. To recognize them as independent factors in the multi-variable logistic regression make the article robust. Anyway is not clear the description used in TABLE 5, please clarify	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<b>Optional/General</b> comments		

**PART 2:**
