

Review Form 3

Journal Name:	Asian Research Journal of Agriculture
Manuscript Number:	Ms_ARJA_122363
Title of the Manuscript:	Time series modeling and forecasting of finger millet cultivation area, production and productivity in Chhattisgarh, India: The Box Jenkins methodology
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The research described in this article has the potential to be improved and may be helpful to the agricultural industry. This study uses the Box Jenkins methodology to study time series modeling and forecasting of finger millet cultivation area, production, and productivity in Chhattisgarh, India.	
Is the title of the article suitable? (If not please suggest an alternative title)	The article's title is appropriate.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is thorough and written well. Please give more details about the potential applications of this research in agriculture as well as future directions for its development.	
Are subsections and structure of the manuscript appropriate?	This research paper is fairly comprehensive. Please provide a summary and recommendations regarding the advantages this research will have for farmers or how it can be used in other fields of study.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The agricultural sector might benefit from and have room for improvement in the research that is discussed in this article. This study examines time series modeling and forecasting of finger millet cultivation area, production, and productivity in Chhattisgarh, India, using the Box Jenkins methodology. This research paper is fairly comprehensive. Please provide a summary and recommendations regarding the advantages this research will have for farmers or how it can be used in other fields of study.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
