

Review Form 3

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_121721
Title of the Manuscript:	"A Review of Soil Health Benefits in Regenerative Agriculture Practices"
Type of the Article	Review

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>The study emphasizes the value of regenerative agriculture (RA) as a solution to the problems of soil degradation and crop yields brought on by conventional farming methods. Important details consist of:</p> <p>Soil Health and Carbon Sequestration, Benefits and Challenges, Socio-Ecological Impacts and the need to farther researching as a long-term studies comparing RA with conventional farming systems.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>I suggest this title "Regenerative Agriculture: Integrating Soil Health, Carbon Management, and Socio-Ecological Outcomes"</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Rewrite the abstract to accurately reflect the entire article, ensuring that the aims of your study are clearly stated</p> <p>I suggest unifying the terminology to keep the reader on track</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Yes but need more</p> <p>I suggest using a numbering format to enhance the article's clarity and comprehensiveness</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>The study provides a thorough assessment of regenerative agriculture (RA) and its impacts on soil health, carbon sequestration, and socio-ecological outcomes. It synthesizes findings from a range of reliable sources, including theoretical frameworks and current empirical studies. By highlighting how RA practices such as minimal tillage, cover cropping, stubble retention, and crop rotation can enhance soil carbon storage and overall soil health, the study provides actionable insights for improving agricultural sustainability.</p> <p>In the section "Regenerative agriculture in India", it highlights a beneficial point regarding the application of regenerative agriculture in India. To enhance the value of your paper, consider providing more detailed information in this section, supported by references, statistical data, and diagrams. Including maps that refer to the specific regions where this practice is applied would also be valuable</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p> <p>=</p>	<p>No, it needs more support; many points in the manuscript require additional references and statistical data</p>	

Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes, the manuscript is at a scholarly level and contains numerous terminologies that effectively support the study	
Optional/General comments	Rewrite the introduction in a way to be clearer to the reader, the concepts of regenerative agriculture (RA) and socio-ecological systems (SES) should be better organized and articulated Organize the ideas in more rational way to make it clearer for the reader	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
