Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript addresses an important unit of vector control. The alternative means of vector control is important as vectors has developed resistance to chemical insecticides. However, clarity issue in presentation has limited the quality of the paper	
Is the title of the article suitable? (If not please suggest an alternative title)	The Title is OK	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is fairly written. Please, see my recommendation. The result section required some corrections	
Are subsections and structure of the manuscript appropriate?	The result section requires some major corrections. The methods are not well clearly stated	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The scientific presentation requires an overhaul. I made a lot of suggestions in the result and method sections. I don't why details of how mosquitoes were sampled and raised were not clearly presented. Many ascertains made were not properly referenced	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	More references were required. Fairly ok anyway	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Fairly ok. I have made a lot of contributions in this regards	
Optional/General comments
