

Review Form 3

Journal Name:	Journal of Complementary and Alternative Medical Research
Manuscript Number:	Ms_JOCAMR_122050
Title of the Manuscript:	A Comparative Study On The Effects Of Camellia Sinensis Extract And Salicylic Acid Topical Formulation On Selected Students With Acne Vulgaris
Type of the Article	Research article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It provides a comparative quantification of natural and synthetic treatment of acne vulgaris which is common dermatological problem. it bridges the gap between traditional medicine and modern dermatology, offering evidence-based conclusions that could influence future skincare formulations and treatment protocols.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title suggestion- A Comparative Analysis of <i>Camellia Sinensis</i> Extract and Salicylic Acid in the Management of Acne Vulgaris in Students	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. Write scientific name in italic.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically robust and technically sound because it employs a well-structured comparative study design, ensuring that the effects of both <i>Camellia sinensis</i> extract and salicylic acid on acne vulgaris are rigorously evaluated.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Add references at least last 5 years. Follow reference style format.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments
