

Review Form 3

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_122014
Title of the Manuscript:	Phytochemical and antioxidant profiling of chilli landraces from hilly regions of India
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The importance of the research lies in: Identifying the components of chilli landraces from hilly regions in India Using their active compounds as a powerful antioxidant Clarifying the importance of these varieties in food and nutrition	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The author should mention all the parameters concerning antioxidant activity in the abstract. Please revise the suggested corrections in the abstract in the attached manuscript.	
Are subsections and structure of the manuscript appropriate?	No The tables should have a key under the table to illustrate the abbreviations and units in addition to statistical significance analysis.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The idea of this manuscript is good, but it needs a lot of ameliorations, such as: * Materials & methods and results should be divided into subclasses (2.1. Chemical and phytochemical analysis, 2.2. Antioxidant activity, 2.3. FTIR spectra). * The methods used should be written in some detail, especially antioxidant methods. * What does this unit (mM/g TE) of DPPH in Table 3 mean?	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments	Important note: All the suggested corrections were put in comment boxes or highlighted in yellow in the attached manuscript.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
