

Review Form 1.7

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_119483
Title of the Manuscript:	Preparation and characterization of two modified laterite soils for arsenic removal in aqueous solutions: Efficiency and kinetic Modelling
Type of the Article	

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>The research work has good scientific and practical value. The data set is systematic and logical. The manuscript is suitable for the field of the journal.</p> <p>The title is appropriate to the article.</p> <p>The abstract provides complete information related to the article.</p> <p>The manuscript has a reasonable structure, the subsections are suitable for the content and ensure the sequentiality of the content.</p> <p>The research results presented in the article have ensured scientific value.</p> <p>The references provide information for the overview and guidance of the study. The citations are mostly new and current. However, some documents should be considered for adjustment or replacement such as documents 2, 6, 11, 16. Document 10 should be updated to https://doi.org/10.3390%2Fmolecules26227046 on the same issue.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>The English level of the article is average.</p>	
<p>Optional/General comments</p>	<p>Some images need to be presented to scale, and details grouped. Consider presenting images as "in line with text" so that the image does not move out of the frame. Add N₂ adsorption isotherms of corresponding samples in the same graph for easy comparison. Add predictive mechanism for adsorption.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
