

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_121710
Title of the Manuscript:	Effect of Liquid Biofertilizer With or Without Vermicompost on Growth and Yield of Field Pea (Pisum sativum) Grown Under Laterite Soil of West Bengal
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The results showed that application of vermicompost 6 t/ha (V ₁) recorded higher growth attributes, yield components, productivity while compared to no vermicompost application (V ₂). Crop fertilized with 75% RDF + liquid biofertilizers (N ₄) showed more growth and yield which was at par with 100% RDF + liquid biofertilizers (N ₅)	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes 'Original Research Article Effect of Liquid Biofertilizer With or Without Vermicompost on Growth and Yield of Field Pea (Pisum sativum) Grown Under Laterite Soil of West Bengal	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	It is Comprehensive	
Are subsections and structure of the manuscript appropriate?	subsections and structure of the manuscript are appropriate but need to give numbers	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	On the basis of results summarized above, it can be concluded that application of vermicompost (6 t/ha) + 75% RDF + liquid biofertilizers resulted in higher growth and productivity for field pea grown under laterite soil of West Bengal	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	Yes references are sufficient and recent	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Good	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
