

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_121102
Title of the Manuscript:	Effect of bioinoculants on enhancement of growth in tissue culture raised banana cv. Nanjanagud Rasabale during hardening
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Application of the etc in the abstract should not be encouraged, expect the leaders to find a brief information related to the article. The word limit for the abstract is 250, I expected to give the leaders information's, findings and general recommendation.	
Is the title of the article suitable? (If not please suggest an alternative title)	<p>Please Relate This Section and Capitalise Each Word in The Title Section And Try As Much As You Can To Avoid Abbreviation And Scientific Name In Your Title</p> <p>Suggested Title</p> <p>For my understanding Nanjanagud Rasabale is a sweet banana variety grown in India and is your study focus alright? Therefore, the title (BALANCE THE DEPENDENT AND INDEPENDENT VARIABLES IN YOUR TITLE, who affect who??</p> <p>The Effects of Bioinoculants on Enhancement Growth in Nanjanagud Rasabale Tissue Culture Banana</p> <p>The issue of the raising stage, will be stated in the problem, hypothesis and statement of the problem</p>	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<p>Add this sentences and on the last sentences of the abstract This review is of great value in expanding the potential bioinoculants on enhancement of growth in tissue culture raised banana, which will not only help to reduce..... but will also be useful for the development ofborrow words from the recommendation section to complete the dotted line</p>	
Are subsections and structure of the manuscript appropriate?	<p>The author introduction started with strong sentences about India however the subtropical countries are many, I expected the author briefly to mention other country and relate their application of the technology and show how it facilitates the banana sector growth. Moreover, the connection of the sentences in the introduction should flow to attract the leaders and connect the problem with background.</p>	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper is important to enhance technology and knowledge sharing to scholar and investors in TC technology.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	My dear , we have plenty of literature in Tissue Culture technology, the introduction comprises 2009 up to 2018 literature. Please update with current literature. Otherwise, it is ok	

Review Form 3

<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Re, read the introduction and methodology section to avoid the mixing of past participle tenses. Make sure the report covers the report cover the past and current message sententes reporting on what you have achieved the weakness and strength of the met</p> <p>Example on the last sentence on the methodoly section I though should read</p> <p>This fusicont is procured from the central soil salinity research institute (CSSRI), RRS, Lucknow.</p> <p>Suggested</p> <p>This fusicont was procured from the central soil salinity research institute (CSSRI), RRS, Lucknow.</p>	
<p>Optional/General comments</p>	<p>Well-done, I am happy and enjoyed reading Work on the comments and then proceed</p>	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i></p>
