

Review Form 3

Journal Name:	European Journal of Medicinal Plants
Manuscript Number:	Ms_EJMP_121301
Title of the Manuscript:	Screening of anti-breast cancer and anti-oxidant properties of selected medicinal plants grown in Sri Lanka
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Cancer is a prevalent disease that has significant social, economic, and psychological impacts on individuals. Breast cancer is one of the most frequent cancers among women worldwide. Every year, many people die from breast cancer. Current cancer treatments, particularly for breast cancer, have limitations and can induce adverse effects, leading to a high incidence rate despite breakthroughs in screening technology. Natural remedies, including medicinal plants, are gaining popularity among the public.	
Is the title of the article suitable? (If not please suggest an alternative title)	A screening of anti-breast cancer effects and anti-oxidant activity of selected medicinal plants grown in Sri Lanka	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is comprehensive If consider the abstract to be a sequence of complete sentences that describe the most important information with the fewest number of words.	
Are subsections and structure of the manuscript appropriate?	Yes, all the subsections and structure of the manuscript are appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The growing global cancer burden necessitates the development of an alternative therapeutic strategy. Herbal therapy offers a viable alternative to conventional cancer treatments. This extensive research of many plants revealed that medicinal herbs have a high anticancer and antioxidant potential. This article comprehensively highlights the anticancer and antioxidant properties of some of the important plants.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	All references are sufficient. To enhance the manuscript's scientific significance, consider including the recent studies on anti-breast cancer effects and antioxidant activity	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language/English quality of the article is suitable for readers' communication. The aims, methodology, results, and study discussions are effectively expressed in the manuscript using clear and logical academic language.	
Optional/General comments	I congratulate the writers on conducting an outstanding study and presenting it.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
