PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript aims to describe the sleep disorders associated with on call staff members. Though the research is conducted with a clear methodology, its relevance to the society appears limited and there are various studies which have explored this association.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes. But the type of study (cross sectional) can also be included.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Introduction and methodology part needs further clarity. Abbreviations need to be expanded in the first attempt. HNID – full form. Number of HNID staff participated in the study can be mentioned in methods section.	
Are subsections and structure of the manuscript appropriate?	Yes.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Though the manuscript is easy to follow, there are certain grey areas which have to be addressed. Abbreviations should be expanded when used for the first time. Why only one component of PSQI was administered? Justify. Number of participants was not mentioned in the methodology part. How was the sample size calculated? Results could have been portrayed with graphs. What are the limitations of the study?	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Could be better
