

Review Form 3

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_121500
Title of the Manuscript:	Evaluation of Bond Strength of a Bioactive Adhesive System Associated with Ozonized Water on Enamel Preconditioned with Phosphoric Acid
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I like the idea of the manuscript because cleaning tools and products used for cavity cleaning is very important in our life. This plays a role in restorative treatment of the cavity.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is good and suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I found the abstract is comprehensive	
Are subsections and structure of the manuscript appropriate?	The structure of the manuscript is highly organized and appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	I found the abstract is good and clearly explaining the idea	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are enough	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	The English quality is very good	
Optional/General comments	<ol style="list-style-type: none"> 1) The sample size is small. 2) Discussion part should be summarized (The content is highly appropriate) 3) Conclusion part is missing 4) Style of the reference is numbered or not? Adhesive systems are responsible for promoting the adhesion of restorative materials to dental substrates (Oliveira et al., 2010). (Introduction part) However, it is noteworthy that extending the storage period to 30 days did not reveal any statistically significant difference between the groups. This result corroborates findings by Celiberti et al. (2006) (Discussion part) 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
