

Review Form 3

Journal Name:	South Asian Journal of Research in Microbiology
Manuscript Number:	Ms_SAJRM_121966
Title of the Manuscript:	IDENTIFICATION AND CHARACTERIZATION OF MYCOTOXINS RECOVERED FROM DRY CORN SOLD IN SELECTED MARKETS IN ENUGU METROPOLIS, ENUGU STATE, NIGERIA.
Type of the Article	Research Paper

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript shows the content of microbes present in the corn in Nigeria. So the benefit is that by reducing these mycotoxins we can promote public health.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes its suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes abstract is fine.	
Are subsections and structure of the manuscript appropriate?	You can add the more introduction details and also include table of proximate analysis of Corn and then add detail about how much mycotoxins is present in corn normally. Introduction should be one page.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript demonstrates scientific rigor through its comprehensive approach to identifying and characterizing mycotoxins in dry corn from selected markets in Enugu Metropolis, Nigeria. The study employs validated analytical techniques, ensuring reliable detection and quantification of mycotoxins. Additionally, the manuscript is technically sound as it effectively addresses potential sources of contamination, providing a thorough assessment that is crucial for public health and food safety. The methodologies are well-documented, supporting the reproducibility and credibility of the findings.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	References are fine but few references are old like 2003 or 2007 so please use latest one after 2015.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes it is suitable.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
