If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>This case study is a good case study as it represents the uncommon FL presentation</p> <p>I would suggest the title be more specific like uncommon extranodal presentation of FL</p> <p>Yes</p> <p>Yes</p> <p>I would like to comment on the treatment choice for this patient, according to British Society of Haematology guidelines for FL, the presented patient is a low risk patient, grade 1, localized disease. In this situation, systemic chemo like RCHOP is not indicated. I would advice the author to look through again and discuss with their haematologist on the treatment option, assessment and post remission strategy.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>Yes</p>	
<p>Optional/General comments</p>
