

Review Form 3

Journal Name:	Asian Journal of Research and Reports in Neurology
Manuscript Number:	Ms_AJORRIN_121691
Title of the Manuscript:	Lipid Peroxidation and Glutathione level following Scopolamine-Induced Cognitive Dysfunction in Rats: Potentials of Telfairia Occidentalis Seeds and Talinium Triangulare leaves aqueous extracts
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Lipid peroxidation and oxidative stress are the regular metabolic processes and part of the stress responses. Imbalance between oxidative stress and antioxidant defence mechanisms results in stress induced disorders such as Alzheimer's type cognitive dysfunction. Stress is the inevitable part of day to day life in the modern world. Any plant derivative or extracts that reduce the stress is beneficial.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript was aimed to address the current day problem. The manuscript was presented in a scientific manner and as per the standard journal requirements. Technically some more information is required to support the hypothesis.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes the references cited in the manuscript were able to address the methods and findings of research.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	It would be wise to add SOD and Catalase data to support the hypothesis in more scientific way	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
