

Review Form 3

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_122178
Title of the Manuscript:	Prevalence and Determinants of Mild Cognitive Impairment in elderly population at Primary Care Facilities.
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The paper aims to investigate the prevalence of Mild Cognitive Impairment (MCI) among elderly patients in Mexico and to identify associated risk factors. The study is well-structured and provides valuable insights into the epidemiology of MCI in this population.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study addresses an important public health issue and employs a robust methodology with a large sample size. The use of the MoCA tool for cognitive assessment is appropriate and the detailed analysis of sociodemographic and health-related factors is commendable. <ul style="list-style-type: none"> • Consider expanding the literature review to include recent studies and highlight how this research contributes to the field. • Clarify the participant selection process and discuss any potential biases. • Enhance the results section with visual representations of data. • Provide a more thorough comparison with existing research in the discussion. 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Overall, the paper is a valuable contribution to the field of gerontology and provides significant insights into MCI among older adults in Mexico. With some revisions, it has the potential to make a substantial impact. I recommend acceptance with minor revisions.	
Optional/General comments	-	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
