## Review Form 3

### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	In North India, these cultivars are irregular/alternate bearers, it will be much better to discuss the results for both the years instead of pooled data.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is suitable if the work is done for evaluation of the commercial cultivars whereas no genetic diversity has been studied.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Need to rewrite a concise abstract	
Are subsections and structure of the manuscript appropriate?	Need little bit changes as per the comments in the manuscript	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study is a region specific only for western Uttar Pradesh for identification of superior commercial cultivar for farmers point of view. Therefore, the material and methods needs to described fully for their scientific cultivation for improved productivity and if found any improvement that should be incorporated in the conclusion.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Check the format of the journal	
<b>Minor</b> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	yes	
<b>Optional/General</b> comments	The data on time of harvesting of all the cultivars need to be incorporated
