PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The article is important for the present scientific applications , because most of data sets are increasing day by day it is very difficult to analyse or synthesize them without compression techniques .at the same time to reduce the time frame taken for the use of data sets signals/data has to be simplified for understanding	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes abstract of the article is comprehensive

Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Better to add few more references which are not clearly mentioned in the literature survey In Page No 3 as in this sentence this particular reference is missing As a result, this paper presents a structured overview of the variety of graph embedding models [10]. But reference number 10 is not included	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	<ol style="list-style-type: none"> 1. Add few more references which are not clearly mentioned in the literature survey along with the year of publication and Author name et al. 2. Ising model algorithm is mentioned in the page number 7 but clarity is missing among the proposed (sum-ising) and previous (rand-ising) methods. If possible use flowchart methods to describe these methods in a better way 3. Equation 1 and 2 and their what is y, what is h, What is x how they are related to this work is missing more specifically they are to be defined
