

Review Form 3

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_123537
Title of the Manuscript:	Design and Optimization of Microstrip Antenna for 5G Wireless Applications using Genetic Algorithm
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> 1. This manuscript is focussing on the area of 5G communication which is of great importance in present scenario. 2. The frequency on which the antenna is designed is using 28 G Hz which may be used 5G plus applications. 3. The parameter obtained are in line with the required values. 	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes title is ok.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes it is comprehensive and up to the mark	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> 1. The manuscript is original in nature and focussing on budding area. The findings are sufficient to prove its originality. 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Language is ok.	
<u>Optional/General</u> comments	<ol style="list-style-type: none"> 1. Figures 9 and 10 are not clear, the captions given in figure are same. 2. The shape of the antenna is quite regular then how it is possible to give single band on 28 G Hz. 3. Can we use some other material rather than FR-4. 	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with the reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in detail)</i> No
