

Review Form 3

Journal Name:	Asian Journal of Medical Principles and Clinical Practice
Manuscript Number:	Ms_AJMPCP_123575
Title of the Manuscript:	PROFILE OF ELDERLY PEOPLE WITH HIV IN BRAZIL FROM 2019 TO 2023
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	HIV is considered as a pandemic disease because it affects all countries in the world. This study is very relevant as an update on the number of cases of HIV/AIDs in Brazil. As a matter of fact, the number of cases is increasing particularly on where the study was conducted. This study could be used as basis for creating policies and program designed particularly elderly.	
Is the title of the article suitable? (If not please suggest an alternative title)	Epidemiological Profile of HIV Among Elderly People in Brazil from 2019 to 2023	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is short. It should contain at least 150 words .	
Are subsections and structure of the manuscript appropriate?	In the methodology section, under the sample subsection, I would suggest that they will include the description of the variables as well as the inclusion and exclusion criteria not in separate sections.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is scientifically correct since it answers the objective of the study. It describes the profile in terms of gender and mode of transmission. It also include the number of cases which is the epidemiology of the disease.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes. But it needs to follow the APA format or what was required in the journal	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The introduction needs to be improved in relation to correct grammar. There are repetitive words like "since". There are paragraph that contains only one sentence particularly the fourth paragraph. The background of the problem must be highlighted.	
Optional/General comments		

Review Form 3
