

Review Form 3

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_123036
Title of the Manuscript:	Characterization of mulberry germplasm accessions for morphological, reproductive and fruit characters
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	assessing various traits such as morphological features (leaf shape, size, etc.), reproductive traits (flowering time, pollination), and fruit characteristics (size, color, taste) maybe included for further elaboration and future study	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	All the general points has been coverbed, now <input type="checkbox"/> Breeding Programs: Selecting superior accessions for breeding to develop improved varieties. <input type="checkbox"/> Conservation: Preserving genetic diversity by identifying and conserving unique or rare accessions. <input type="checkbox"/> Cultivation: Identifying accessions with desirable traits for large-scale cultivation. Thease above points should be taken care of in future studies	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Add more recent works	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Minor revision	
Optional/General comments	Can be accepted with minor revision Molecular studies are crucial for complementing and strengthening the findings from morphological characterization, as they provide a more detailed and precise understanding of genetic diversity and relationships among different mulberry accessions.	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
