

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<b>Journal of Geography, Environment and Earth Science International</b>
Manuscript Number:	<b>Ms_JGEESI_121972</b>
Title of the Manuscript:	<b>ASSESSING THE FOREST PROVISIONING ECOSYSTEM SERVICES AND USE IN FOREST-SAVANNA ECOLOGICAL ZONE</b>
Type of Article :	Research <b>Original Research Article</b>

### PART 2:

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p>Dear authors, thank you for your revision. After I read the revised manuscript still I have concerns:</p> <ol style="list-style-type: none"><li>1. The abstract is too long (352 words), check the author guideline and revise it.</li><li>2. No further improvement in the introduction part. At least the authors need to explain species base ecosystem services, ecoservices, all the forest benefits should be discuses.</li><li>3. On the method part, what is scientific background to use 200 samples? Support it with citation unless it not scientific. Why the interview cover 30 years and above?</li><li>4. How and who identified the plant species?</li><li>5. Still the results parts are insufficient and most of the tables and figures lack narration.</li><li>6. See the manuscript for additional comments.</li></ol>
