Type of the Article	Research Artical

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Researchers raised important concerns about the off-label use of medicine. It is a big concern for pharmacists, and global health care issues may arise or get reinvestigated if used. It is important to spread the awareness about the proper and if possible off label used of medicine with certain guidelines or protocol, if there are limited choices are available for the treatment.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Metformin, Propranolol, Prazosin, Clomide (clomifene citrate), and Pregabline shall describe the rationale of medicine use as per the country's country regulatory guideline, if available. Authors can also discuss the cases in the discussion part about the consequences arise due to certain drugs off-label, if reported by some authors. So it can create more impact for readers.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments	Suitable	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments
