PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This study makes sound contribution to limit unethical practices by students in the use of AI. Un controlled use of AI puts creativity and innovation in research at stake which affects the progressive contribution of scientific knowledge in the society.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract represents a summary of the article. However it mentions use of observation which is not reflected in the methodology section and there are no results of what was observed, where and what conclusions. I therefore suggest this information to be added in the article to make it more scientifically robust.	
Are subsections and structure of the manuscript appropriate?	Fairly appropriate subsections and structure of the manuscript. However include separate sections of findings and discussion; recommendations. Include recommendations for further studies as envisaged in your contribution and innovation section.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Expand the introduction to reflect developments in the efforts to address ethical issues in use of AI and justify the focus on Persuasive Language and Critical Literacy from among the diverse language –based techniques that can be used to ensure Student's ethical use of AI. In the statement of the problem provide some empirical studies or statistical data to show the magnitude of the problem.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Very old references beyond 10 years should be expunged from the study.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	The use of language is adequate. However proof reading to remove some spelling errors is recommended.	
Optional/General comments	Did the study address the research objectives/questions? Provide a summary of this in your findings/results discussion section. Address the issues raised in the various sections
