

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_123369
Title of the Manuscript:	Genotype × Environment Interaction for Grain Yield and Component Traits in Wheat (<i>Triticum aestivum</i> L.) for Varietal Recommendations in Meghalaya state of India
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is good because include the effects good information for selection criteria for the specific environment in India Some traits can use by breeder for selection high yield genotypes Because include a good example for analysis (AMMI and GGE biplot). The manuscript should include name of the experimental design and metrological data Some information about soil, environment	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Its good, but need some information for name of the experimental design	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is good because include the effects good information for selection criteria for the specific environment in India Some traits can use by breeder for selection high yield genotypes Because include a good example for analysis (AMMI and GGE biplot) for showing the distribution of genotypes within environments and traits with environments. All these information help the breeder for selection.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient but very old	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language is good	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
