

Review Form 3

Journal Name:	Asian Journal of Research in Nursing and Health
Manuscript Number:	Ms_AJRNH_122053
Title of the Manuscript:	Hospital Nurses' Encountered Challenges on Emergency and Disaster Cases
Type of the Article	Original

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Took very important topic about disaster preparedness for healthcare providers	
Is the title of the article suitable? (If not please suggest an alternative title)	I suggest below title Challenges Encountered Nurses towards Emergency and Disaster Cases	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Complete but need author/s to review language and using the past tense in methodology	
Are subsections and structure of the manuscript appropriate?	Appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript sound because took important topic but the weakness in choosing qualitative study design if the author used mixed study it will be sounder and more robust	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes sufficient	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes suitable	
<u>Optional/General</u> comments	Good structured manuscript and highlighting very important topic The qualitative studies is important but not in this such topic because like this topic we need to use mixed study design and take all personnel in health care providers from ministry of health to expand the knowledge and know the defects for preparedness from which site exactly
