Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.		
Is the title of the article suitable? (If not please suggest an alternative title)	<ol style="list-style-type: none"> 1. Ensure that the abstract does not repeat other sections while summarizing all contributions and insights. 2. Review the introduction to ensure that the study problem and outlined aims are more concise. 3. Expand the literature review to include recently published integration research. 4. Point out the gaps in the existing literature that are somehow filled by your research question. 5. Add a fuller description of some technical details that need explanation when describing 6. To keep the reader's attention, minimize the frequency with which you use the same words in the descriptions. 7. Improve the overall sharpness of the illustrations to get a better view of the element in question. 8. Make sure that all technical terms and concepts are well explained for the target audience's level. 9. Explain any potential drawbacks of the proposed approach. 10. Avoiding grammatical and spelling errors is essential, so the manuscript must be well edited to improve standard language. 11. Ensure that all sources have been cited correctly and that their format in the paper is consistent. Also, ensure that the list of references is complete and relatively up to date. 	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Are subsections and structure of the manuscript appropriate?		
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		

Review Form 3
