

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_122949
Title of the Manuscript:	Sustainable Harvesting and Cultivation Practices of Medicinal Plants
Type of the Article	Review

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It addresses the crucial intersection of biodiversity conservation, socio-economic development, and sustainable agricultural practices through the lens of medicinal plant cultivation. I appreciate this manuscript for its comprehensive approach and the way it integrates various dimensions of sustainability, offering valuable insights that can contribute to the advancement of sustainable practices in medicinal plant cultivation.	
Is the title of the article suitable? (If not please suggest an alternative title)	It can be made specific	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I reviewed the document, but I couldn't find a section dedicated to the methodology. It's important to include a clear and detailed methodology section to explain the approach, data collection, and analysis methods used in your research.	
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and structure of the manuscript are appropriate.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript shows scientific correctness through its comprehensive review of existing literature and well-reasoned analysis of the economic, social, and environmental aspects of medicinal plant cultivation. The authors have cited relevant and up-to-date sources, ensuring that the discussion is grounded in current scientific understanding. The inclusion of a comparative table and emerging trends further supports the manuscript's technical soundness by providing clear, evidence-based insights into the sustainable management of medicinal plants.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The manuscript is well-structured, with clear and concise sentences that effectively convey complex ideas.	
Optional/General comments	The methodology section, which is currently missing, is crucial for understanding how the findings were derived.
