

**Editor's Comment:**

I've gone through the Peer Review Report of the manuscript provided by 2 reviewers. I've also checked the authors response to the Reviewers comments as well as the revised manuscript.

I found in the modified the manuscript in "Acute toxicity effect" the verb "will be" has been used, which is incorrect. I also found that chloroform was used as anaesthetic agent which is obsolete now.

After proper correction the manuscript may be accepted for publication.
