

Review Form 3

Journal Name:	Asian Journal of Research in Agriculture and Forestry
Manuscript Number:	Ms_AJRAF_123066
Title of the Manuscript:	STUDY ON THE EFFECT OF FOLIAR FERTILIZERS ON THE GROWTH AND YIELD OF HEAT-TOLERANT CUCUMBER VARIETIES
Type of the Article	

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>The subject of this work is important from a scientific point of view, as well as from a practical point of view. However, I appreciate that regarding the preparation of the work, the author's attention should be directed towards making the reader's understanding as easy as possible. I am referring here especially to the Material and Methods Section, but not only. As I mentioned on the manuscript, a careful review should be done including in the case of the References section.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Because the study has been done only on TV108 variety, I appreciate that the article title can be: STUDY ON THE EFFECT OF FOLIAR FERTILIZERS ON THE GROWTH AND YIELD OF V108 HEAT-TOLERANT CUCUMBER VARIETY</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>Yes.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>I appreciate that some improvements should be done, as I recommended on the manuscript.</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>From this point of view, I think that improvements to the content of the work are necessary. When I say this, I am referring to the Introduction Section, where at the end the objectives of the present study must be clearly stated, without resorting to citations of previous works. The objectives will be established after the documentary study has been completed (which will begin with general aspects regarding the stress caused by high temperatures in plants, then reference will be made to the research situation on this topic in cucumbers). Also, the Material and Methods section lacks adequate structuring and a series of details (such as those related to determined indicators, etc.).</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>The section must be carefully review and Instructions for authors must be respected.</p>	
<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Yes</p>	
<p>Optional/General comments</p>		

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
