PART 1:

Journal Name:	Asian Research Journal of Gynaecology and Obstetrics
Manuscript Number:	Ms_ARJGO_122294
Title of the Manuscript:	Assessing the true prevalence of endometriosis: A narrative review of literature data
Type of Article :	

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ol style="list-style-type: none">1. In the Introduction paraphrasing needs to be done in first paragraph.2. Whole second paragraph is meaning less and seems some cuttings of different papers pasted over here. Looks ambiguous and un-necessarily complications of endometriosis were added.3. There is no clear declaration by the authors about the replication of the results of any previously published paper.4. In Methodology of this manuscript only data of three countries is mentioned. How many surveys, trials etc were screened, how many were excluded and what was the reason/criteria for exclusion. Flow chart of the literature search and tables of the type of studies is not there. Consort diagram could have been included.5. Discussion is absent in the manuscript.6. References cited are relevant but not adequate
