

Review Form 3

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_122746
Title of the Manuscript:	Analysing the Growth and Instability of Cereal Crop Production Across Kharif and Rabi Seasons in Western Odisha
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This article offers a comprehensive evaluation of agricultural growth and instability in Western Odisha, focusing on key cereal crops across different seasons. By analyzing Compound growth rates and Coppock's Instability Index using extensive data from 1993-94 to 2022-23, it provides critical insights into regional variations in crop production. This research contributes to the scientific understanding of agricultural patterns and vulnerabilities, informing targeted strategies for enhancing food security and stabilizing production in a region prone to agricultural risks.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, title correctly matched the article.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, it is comprehensive and it attracts the reader to go through the whole article.	
Are subsections and structure of the manuscript appropriate?	Yes. In Introduction part one minor spelling mistake is there. Please correct that as i had highlight that word.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically sound as it uses scientific methods to analyse the growth and instability in crop production in Western Odisha. It explains well the method used and results were clearly described.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	In introduction part, some provided data are required to be backed up by the source. I have highlighted that part.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes.	
Optional/General comments		

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
