PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Its totally vague title because researcher did not do anything on NMDA but he/she mentioned that ketamine induced toxicity through NMDA receptor modulation.	
Is the title of the article suitable? (If not please suggest an alternative title)	Not acceptable because in article there is nothing regarding NMDA modulation even in methodology and in results.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Quite fine	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	I don't think so its technically sound because researcher did not observe the effects of extract on NMDA receptor or Researcher need to change the Tittle.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Suitable	
Optional/General comments	Here reviewer should declare his/her competing interest. If nothing to declare he/she can write "I declare that I have no competing interest as a reviewer" Maybe. Because I have seen similar work and can be done using libraries. I declare that I have no competing interest as a reviewer
