

Review Form 3

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_123324
Title of the Manuscript:	Vector Borne Disease Ecology and Environment: Remote Sensing and GIS for Control and Management-A Systematic Review
Type of the Article	Review Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is important to the scientific community based on its in-depth analysis into existing knowledge with the purpose of scrutinizing and giving insight or throwing more light into the methods ability to sustainable living of individuals. This Manuscript will aid in filling a notable research gap in the field of health and remote sensing . Moreover the findings of this manuscript will inform policy makers on the necessary importance of including the knowledge of GIS in the combat of vector born disease ecology and the Environment	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the proposed title gives in-depth knowledge on the content of the Manuscript	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the manuscript captures all the concepts.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The systematic review is scientifically correct and robust by providing in-depth knowledge It also draw clearly the importances among the various methods	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, all reference are current but author(s) should check the first three reference and cite them well	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Author(s) should look at the grammar and spelling of some of the words.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
