PART 1:

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_122630
Title of the Manuscript:	“Hygienic Floor Management Using Hot Water: A Strategy to Reduce Piglet Mortality in Northeastern India”.
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>1- The manuscript doesn't add any <u>scientific</u> fact to the animal's farm. 2- There wasn't tabulated mortality rate result, to be discussed!! 3- I suggest re-establishing and conducting such trial with adding another effective material (sterilize compound), and also increase the number of animals, in order to give a real result. 4- The studied INCIDENCE RATE (%) wasn't analysed statistically. 5- The explanation of the effect of hot water wasn't logical!! 6- There isn't any information about bacteria species in the studied house or area!? That is may affected by hot water!?</p>
