Journal Name:	<a href="#">Journal of Education, Society and Behavioural Science</a>
Manuscript Number:	Ms_JESBS_128164
Title of the Manuscript:	Exploring the Impact of Parental Involvement on Teachers' Sense of Self-Efficacy, Work Commitment, and Job Satisfaction
Type of the Article	

**PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	<ul style="list-style-type: none"> <li>➤ This study is important as it highlights the influence of parental involvement on teachers' professional well-being, including their self-efficacy, work commitment, and job satisfaction, which are critical to student success. Understanding this dynamic can inform school policies and foster collaborative relationships between educators and families, ultimately enhancing the overall educational environment.</li> </ul>	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<ul style="list-style-type: none"> <li>➤ Yes, the title is suitable for this article as it reflects the main variables.</li> <li>➤ Author may use the title below.</li> </ul> <p>"Regression Analysis on the Perceived Parental Involvement on Teachers' Sense of Self-Efficacy, Work Commitment, and Job Satisfaction"</p>	

**Review Form 3**

<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p>➤ In the research article, the author may also include the research design, research statistical treatment used and others.</p> <p>For more comprehensive and organize research abstract, the author may follow this format:          1<sup>st</sup> sentence - Present the pressing issues and problems regarding the focus of the study.          2<sup>nd</sup> sentence - Describe the purpose or objectives of the study.          3<sup>rd</sup> to 4<sup>th</sup> sentences – describe and present the summarized methods of the study specifying the following namely: research design, research participants, research instrument, and research statistical treatment.          5<sup>th</sup> to 6<sup>th</sup> sentences – present the results and findings of the study.</p>	
<p><b>Is the manuscript scientifically, correct? Please write here.</b></p>	<p>➤ Author may improve the research manuscript making it more scientific.          ➤ Author may add more on introduction section by indicating problems and issues regarding the focus of the study in national and local context.          ➤ Author may improve the research manuscript with the following:</p> <p><b>Introduction</b></p> <ul style="list-style-type: none"> <li>- Provide clear discussion of problems in global, national, and local context</li> <li>- Provide theoretical basis of the research study</li> <li>- Present the conceptual framework and schematic diagram of the study.</li> <li>- State research statement of the problem</li> <li>- Literature review focusing on the IV and DV of the study.</li> </ul> <p><b>Methodology</b></p> <ul style="list-style-type: none"> <li>- Author may specify the research design</li> <li>- Research respondents (discuss the process in selecting the respondents) and research locale.</li> <li>- Include the research instruments</li> <li>- Include the research data analysis</li> <li>- Include the data gathering procedure</li> </ul> <p><b>Results and Discussion</b></p> <ul style="list-style-type: none"> <li>- Follow updated format in presenting tabular data</li> <li>- Provide clear explanation in every result presented and must be supported with literature review.</li> <li>- Author may add the statement of the problem specifying regression questions.</li> </ul>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p>➤ Yes, of some, however, the author may provide more relevant recent references as per new guidelines and updated APA format.</p>	
<p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>	<p>➤ Adequate</p>	
<p><b>Optional/General</b> comments</p>	<p>➤ The findings of the study add relevant contributions specifically to the existing literature regarding the focus of the study. However, more discussion and support incorporated in some sections in the study, will make the research more relevant. Thus, addressing some comments and suggestions presented above may lead to a relevant impact on society and future researchers focusing on this type of research study.</p>	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Are there ethical issues in this manuscript?</b></p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
