

### Review Form 3

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_128211
Title of the Manuscript:	FORMULATION, EVALUATION AND STABILITY STUDIES OF DUTASTERIDE LOADED NIOSOMAL GEL
Type of the Article	Original Research Article

#### **PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	The project does not seem to be novel as niosomal gel does not play a significant role in increasing the solubility of Dutasteride. Half-life of Dutasteride is 1-2 weeks. Hence there is no need of sustained drug delivery for the same which is aim here. The need and rational does not fit accurately over here.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Title is suitable here.</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	<b>Abstract is comprehensive.</b>	
<b>Is the manuscript scientifically, correct? Please write here.</b>	Whatever study is performed, Most of the procedures are incomplete. Detailed procedures are missing.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	70% of references should belong to last five years. Here 30% references are only from last 5 years.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Language is acceptable.	
<b>Optional/General</b> comments	<b>References are not is uniform format. Ex vivo study should be performed to ensure higher permeation rate. Phase Solubility study should be performed to ensure the increase in solubility due to incorporation of drug in niosomes. Detailed procedure should be mentioned in the manuscript. Discussion part for most of the results is missing. Detailed discussion is expected.</b>	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
