

Review Form 3

Journal Name:	International Research Journal of Gastroenterology and Hepatology
Manuscript Number:	Ms_IRJGH_128171
Title of the Manuscript:	Prevalence and risk factors for metabolic-dysfunction associated fatty liver disease in South Indian population
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This research can help identify vulnerable groups within the diverse South Indian demographics, facilitating tailored healthcare policies and resource allocation. Ultimately, addressing MAFLD effectively can reduce the burden of liver-related morbidity and associated healthcare costs in the region.	
Is the title of the article suitable? (If not please suggest an alternative title)	A Cross-Sectional Analysis on Risk Profiling and Prevalence of MAFLD in the South Indian Population.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	<ol style="list-style-type: none"> (1) In introduction, add genetic factors, etiological factors and risk factors associated with MAFLD (2) In methodology justify the role of parameter used to diagnose the NAFLD (3) In results put images of sonography if done as mentioned in methodology (4) In discussion, add the further studies which can be done for MAFLD (5) In conclusion, link the age, risk factors and life style of south indian population to justify the result obtained from your studies. (6) Funding not mentioned.
