

### Review Form 3

Journal Name:	<a href="#">Asian Journal of Research in Infectious Diseases</a>
Manuscript Number:	Ms_AJRID_128223
Title of the Manuscript:	<b>Mpox threads in Bangladesh: An emerging health challenge and call for action</b>
Type of the Article	<b>Letter To The Editor</b>

#### **PART 1: Comments**

	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is of paramount importance to the scientific community as it highlights an emerging public health threat in a densely populated and vulnerable region, namely Bangladesh. By analyzing the implications of the spread of Mpox Clade 1b and proposing proactive measures, it contributes to the understanding of epidemiological challenges and prevention strategies in a global and regional context. Furthermore, this work promotes dialogue between the public health, veterinary medicine and cross-border policy sectors, emphasizing the importance of a collaborative approach. Finally, it offers transferable lessons to other countries facing similar risks.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	the title can be kept	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	Suggested revisions <ul style="list-style-type: none"> <li>- Clarity on global and local context</li> <li>- More concrete actions</li> <li>- Exclusion of repetitive information</li> </ul>	
<b>Is the manuscript scientifically, correct? Please write here.</b>	The manuscript appears to be scientifically correct based on the information provided, as it highlights valid concerns regarding the emergence and spread of Mpox (monkeypox) in Bangladesh, particularly in light of the Clade 1b strain recently reported from India.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	No recommendations	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The linguistic quality of the article generally appears to be suitable for scientific communication	
<b>Optional/General</b> comments	The manuscript addresses a topic relevant to public health. However, it could be enriched by further analysis, more recent references (2023-2024) and visualizations such as graphs or tables.	

**Review Form 3**
