Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The selection of the topic is good but the work conducted could have been more detailed. Objectives should be clearly defined. Results & Discussion section can be improved.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Methodology has to be specified with proper inclusion and exclusion criteria. Result section doesn't mention about the socio demographic factors and its effect on dietary quality.	
Is the manuscript scientifically correct? Please write here.	Review of literature has to be done more intensively.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are recent. More review could have been associated with dietary quality assessment tools.	
Is the language/English quality of the article suitable for scholarly communications?	Language is fine but in the last section under Discussion section; the language was very general and not appropriate (could be avoided).	
<u>Optional/General</u> comments	The study mentions about the association between economy and Non recommended Food (NRF) with only one tool used (regression analysis). There should have been analysis of socio demographic factors and its association. Dietary quality assessment tools should have used for the analysis.
