PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	As the global population continues to grow and natural resources become increasingly limited, it is essential to develop sustainable practices that balance human needs with environmental preservation. The challenge lies in adopting technologies, policies, and lifestyles that minimize resource depletion and environmental degradation while ensuring equitable access to resources for all. However, the prospects for a sustainable future are promising if we embrace innovative solutions such as renewable energy, circular economies, and sustainable agriculture, which can help us navigate these challenges and foster long-term environmental and social well-being.	
Is the title of the article suitable? (If not please suggest an alternative title)	Transition Beyond Petroleum: Prospects and Challenges for Sustainable Life on a Resource-Scarce Planet
