	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is crucial to the scholarly community because it gives new opportunity to understand the role of community in forest management. It enables rural community to participate in forest plantation. As well as this research give information that forest can be a source of job, and income. Generally this research paper has multifaceted advantage on promoting resources sustainability.	
Is the title of the article suitable? (If not please suggest an alternative title)	It fits in and is appropriate for the article's body.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	This article's abstract ought to include a conclusion and a recommendation. Additionally, it shouldn't be divided into paragraphs, as academics think that abstracts for scientific study should be contained inside a single paragraph.	
Is the manuscript scientifically, correct? Please write here.	The research methods and writing style used in this publication are scientific. The author should also use tools (software) to include scientific analysis.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The article has not sufficient references for example in "introduction and result" part need additional reference. As well as the researcher used an old reference and need to use latest reference. The reference source shouldn't have been published for more than ten years. However, the type of source being used and the study topic determine the acceptable age of a source.	
Is the language/English quality of the article suitable for scholarly communications?	Yes, it is appropriate and simple to comprehend.	
Optional/General comments	As a reviewer, I need to give the comment on the articles, the article is very important for the community and scholars because it is the hotspot of the current global. The researcher of this article should take correction to add sound analysis on the result part and use very latest references for both introduction and result part to crosscheck the result with others.
