	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	Sleep bruxism in children is a neglected topic and these types of researches are required to expand the management options. This clinical trial investigates the effect of a novel technique called vascular Photobiomodulation for sleep bruxism in children and adolescents.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title is good and acceptable but it might be better this way: Evaluation of the effect of vascular photobiomodulation in sleep bruxism of children and adolescents: A randomized controlled clinical trial	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	It is scientifically correct, but it can benefit from an English editing.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	Yes, the methodology is sound and according to CONSORT guidelines. However, the tables are vague and need more clarification in their title and in footnotes. May be some tables could be joined together. Also please explain the P value of "0". How can it mean no difference between two groups? The discussion needs to explore the subject more deeply, and results should be compared with similar studies.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Overall, the references are recent however some references before 2010 have been cited, that are not fundamental and can be replaced by more recent ones.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The text needs a minor English editing. There are some repeated sentences.	
<b>Optional/General</b> comments	Please explain more about the scoring of the variables to 0 and 1.
