Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Review articles like this do not usually include experiments done by the authors, so I don't expect any experimental design or statistical test used. However, a review can provide a starting point for future researchers to consider. Climate change was mentioned by the author as a future challenge and direction. Climate change may be considered for basic research such as effect of temperature on reproductive and survival rates for possible pest modelling work
