

Review Form 3

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_127165
Title of the Manuscript:	Assessing the Decadal Dynamics in Land Use and Land Cover (LULC) of Ferozapore nallah Watershed in Kashmir valley using Geospatial Techniques
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Analysis of spatial dynamic changes in LULC is crucial for improving environment management practices. The use of remote sensing in LULC monitoring at different ecological zones provide insights understanding of applicability and limitation of Geospatial techniques.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, the abstract is comprehensive and very informative. However, please refine the keywords, India is not mentioned.	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript was written in a very sound scientific way. Technically, the objective of the research is very clear and sound in addition to stated justification. Introduction highlights the scientific background for the study. The used methodology is standard method and highly accepted. The result layout is clear and informative. Some minor correction is provided below: <ul style="list-style-type: none"> - Methodology: Table 2: The content need to be align with each other, In addition LULC categories need to be refined, because he mentioned Agriculture then Horticulture, although both of them are agriculture, I think he can categorize them intor field crops horticultural crops. Same note for Forest and Scrubs since both of them are forest. - Result and Discussion, where is the ninth class scrubs 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	

Review Form 3

Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Very minor.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
