

Review Form 3

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_128239
Title of the Manuscript:	EX VIVO EVALUATION OF FRACTURE RESISTANCE AND PATENCY RATES OF GLIDE PATH INSTRUMENTS IN HUMAN PERMANENT MANDIBULAR MOLARS
Type of the Article	Original Research Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This study was done to evaluate reciprocating and rotary glide path files in human permanent mandibular molars, focusing on instrument fracture deformation and patency rates and the result was reciprocating system did not show superiority over the rotary system under the conditions tested. The finding also highly that the high patency rates achieved by glide path files and the difference in performances between the various systems tested.	
Is the title of the article suitable? (If not please suggest an alternative title)	Evaluation of patency rates of glide path instruments and fracture resistance in human mandibular molars: An ex vivo study.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes the abstract is comprehensive.	
Is the manuscript scientifically correct? Please write here.	Yes the manuscript is scientifically correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes the references is sufficient.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	It would have been more challenging if the author would have been done in 40 degree curve canal mandibular molars.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
