

### Review Form 3

Journal Name:	<a href="#">Journal of Experimental Agriculture International</a>
Manuscript Number:	Ms_JEAI_126527
Title of the Manuscript:	Constraints faced by Farmers of Rajasthan State in the Adoption of Improved Kinnow Production Technology
Type of the Article	

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Good research paper as finding constraints help in need-based policy making	
Is the title of the article suitable? (If not please suggest an alternative title)	Constraints faced by farmers in Adoption of Improved Kinnow Production Technology in Rajasthan	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Remove Kinnow word from abstract as title itself is for kinnow only	
Are subsections and structure of the manuscript appropriate?	Yes, but it will better if correlation is done with X and Y variables	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	For implementing and proper ToT, farmers problems in adoption is priority as it simplified technology transfer with cost effective way.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes.	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Kindly revise once.	
<b>Optional/General</b> comments		
	Correlation and regression would be better for statistical analysis
