**PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study (depending on its title) which focusses on the organic soil nutrition, has contributed some new results to the scientific community and to Science Hub.	
Is the title of the article suitable? (If not please suggest an alternative title)	Short term impact of Andropogon Gayanus on soil fertility and legume crop rotation.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract lacks a clear purpose, a clear experimental setup, a clear outcome, a clear result, and it is badly written and un-editable.	
Is the manuscript scientifically, correct? Please write here.	No, it is scientifically correct. It badly lacks scientific experimental procedures.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The reference is sufficient, but old. And lacks clarity and formatting style.	
Is the language/English quality of the article suitable for scholarly communications?	Poor language usage, lacks clarity, unedited, jargon manuscript. I think it is not suitable for scientific paper in general and for the scholarly community particularly.	
<u>Optional/General</u> comments
