PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is significant for the scientific community as it demonstrates how Improved Technology (IT) can bridge the yield gap in sesame cultivation under rainfed conditions, leading to higher productivity and economic gains. By showcasing the benefits of Frontline Demonstrations (FLDs), it highlights their role in improving farmers' adoption of modern practices. The study provides valuable insights for policymakers and extension services to promote targeted interventions, reduce the technology gap, and enhance farmers' incomes in similar agro-climatic regions.	
Is the title of the article suitable? (If not please suggest an alternative title)	The current title is quite complex, it can be modified to "Yield Gap and Economic Analysis of Sesame (<i>Sesamum indicum</i>) through Frontline Demonstrations in Rainfed Conditions of Bundelkhand."	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Restructured the abstract into the SDI format. Added missing quantitative data to make it comprehensive. Ensured clarity, conciseness, and alignment with the manuscript template.	
Is the manuscript scientifically, correct? Please write here.	Yes, the manuscript is scientifically correct in its approach and findings. Providing a more detailed discussion would significantly enhance its scientific impact.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references included in the manuscript are sufficient.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	The manuscript did not follow the guidelines. It is recommended that the journal template be edited and that the guidelines for manuscript preparation be followed. Please See Attachment
